HOW TO LOCATE A SATELLITE SITE

1. Locate a satellite downlink site in your community, with a steerable dish, that can receive either C or KU-bands. Most hospitals, community colleges, some local health departments, and high schools have steerable dishes. (If you need help identifying a site, please call Vicky Ritz at 217/785-4475).
2. After identifying a site, make sure that they can accommodate you for this particular date/time. You will need to arrive approximately 30 minutes before air time to set the room up, i.e., make sure program is tuned-in, set out sign-in sheet, handouts, etc.
3. Fill out the attached form and fax it to Vicky Ritz at 217/557-7843.
4. Specific coordinates and materials (if applicable) will be mailed to you approximately 10 days prior to the program. At that time you need to forward the coordinates to the technical person at your site.
